TOWN OF AUBURN

March 1987

Dear Fellow Residents,

Growth is the most pressing issue facing the Town in the foreseeable future. If we are to maintain the quality of life in Auburn as we know it today, we must be capable of meeting the challenge of managing the Town's growth to ensure that it occurs in both an orderly and tasteful manner. Perhaps more importantly, we must be aware of and sensitive to the issues which have traditionally accompanied growth in other areas. Unlike our pioneering forefathers, we are in a position to survey the effects that growth has had on other communities, weigh the results, consider the alternatives, and collectively decide what is best for our Town. As Robert Frost, our neighbor from Derry, wrote in his renowned poem, "Two roads diverged in a yellow wood...". Such choices are now facing us and we must be prepared to make timely and responsible decisions regarding Auburn's direction in the future.

The past year was a busy one for the Town. It brought revaluation of property, reconstruction of Wilson Crossing Road, construction of the new Fire House, and selection of a developer for the industrial park. This year promises to be even busier with more road improvements, expansion of the school, improving police protection, computerization of certain functions at the Town Hall, and completion of the outdoor recreation facility. Much of this is to manage growth, some just to keep pace. Yet, as a community, we have taken time to interject a little fun into life in Auburn with events such as Olde Home Days, Winter Carnival, the Summer Youth Program, Senior Citizen outings, and various concerts which have found their way into and are fast becoming a tradition in our Town. As we grow we must not lose sight of the values that such time spent with our neighbors contributes to the quality of life in Auburn. In the end, it will be the difference which sets Auburn apart from other towns in the region.

The common thread which weaves this altogether is the strong commitment to volunteerism in the community. The progress which Auburn has made to date, as well as the success that it will enjoy in the future, is so vitally dependent upon the efforts of volunteers. To those uncounted numbers we extend our thanks. Auburn is our Town. If you have not already become involved, please make a contribution of your time and talent - it can only make Auburn a better place to live!

Your Board of Selectmen,

Daniel J. Carpenter, Chm.
Eugene A. Thomas
Richard E. Shackelton

Superintendent's Reports

If there is an issue that really needs to be singled out to the members of the community it is the increasing growth of students in the Auburn School District anticipated in the next five to ten years. Planning appropriately now will alleviate many of the educational problems that may be encountered in the future.

During the early summer of 1985 the Auburn School Board set in place a School Building Committee comprised of school board members, administration, staff, and citizens of the community, to review the long range plans of the district for the next five to ten years.

The group has met for the past two years, and with the assistance of Mr. Tom Johnson, architect, have finalized plans for a bond issue at the March 1987 School District Meeting.

The Building Committee has had several public hearings to receive input from the community as a whole, and the committee members are to be commended for the number of hours spent working on this project.

The recent two year negotiated contract between the staff and the school district has proved to be most beneficial to the students of the district. There has been little, if any, staff turnover during this time.

Mrs. Doris Jackman, Lunch Director, retired at the end of the 1985/86 school year. The District is most appreciative to Mrs. Jackman for her dedicated service to the youth of Auburn for twenty-four years.

Securing and paying for adequate liability insurance has been a problem facing the Auburn School District, the same as it has been for schools and municipalities across the country. The cost has escalated drastically over the past two years.

During 1985/86 the population of educationally handicapped children continued to grow, resulting in a Resource Room filled to capacity and the out-of-district placements to other public schools of several students who required more restrictive programs than Auburn had space to provide. It is expected that a part-time teacher will be needed next year to assist with the Resource Room population as it continues to grow.

The SAU # 15 of Auburn, Candia, Hooksett, and Raymond has gone through a painstaking process in the division of Raymond's withdrawal from the SAU # 15 to their own SAU # 33. This division became effective as of July 1, 1986. Both the school boards and the administration of all four districts have worked diligently to provide a smooth transition for all districts concerned. The completion of this reorganization will be June 30, 1987.

I wish to thank the Auburn School Board members, Principal Ray Bourque, all school staff members, and the citizens of the community for their continued support throughout the past school year.

Respectfully submitted,
David R. Cawley
Superintendent of Schools

Auditor's Report

To the Members of the School Board
Auburn School District
Auburn, New Hampshire

We have examined the general purpose financial statements of the Auburn School District and the combining, individual fund, and account group financial statements of the School District as of and for the year ended June 30, 1986, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the general purpose financial statements referred to above do not include the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles. The amount that should be recorded in the General Fixed Assets Account Group is not known.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the general purpose financial statements referred to above present fairly the financial position of the Auburn School District, at June 30, 1986, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding years. Also, in our opinion, the combining, individual fund, and account group financial statements referred to above present fairly the financial position and account groups of the Auburn School District, at June 30, 1986, and the results of operations of such funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole and on the combining, individual fund, and individual account group financial statements. The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Auburn School District. Such information has been subjected to the auditing procedures applied in the examination of the general purpose, combining, individual fund, and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements and account groups taken as a whole.

Principal's Report

The school population in September, 1985, was 436 and when school closed in June, it was 426. The school population today, November 17, 1986, is 450.

During the past school year, the Reading Curriculum Committee completed work and recommended a new reading program that will be implemented during the 1986-87 school year in grades R-8. The major curriculum area to be reviewed during the 1986-87 school year will be mathematics. A Math Curriculum Committee has been established and Mrs. Aranka Kupoics will be chairperson for this committee.

During the past year and a half the Auburn Building Committee, chaired by Mr. David Greene, has been evaluating the school district's educational needs. This committee has presented their findings to the School Board and has been working with the School Board members to develop a plan that will address these educational needs. The School Board has held public meetings to present their plans to the community. I hope you have attended these meetings to voice your opinion on their proposal.

The Auburn School District offers a balanced sports program consisting of soccer, basketball, cheerleading, baseball, and softball in the upper grade levels. I want to thank Patricia McGrath who has done an exceptional job of developing and coaching the girls basketball team during the past four years.

The school PTA has been a constructive and positive group working to enhance the quality of educational opportunity for Auburn students. During the past year, the PTA has sponsored the N.H. Symphony Orchestra in-school education program, purchased novels for a reading enrichment project for seventh and eighth graders, and funded "The Wonder of Fantasy"; a childrens workshop to develop student's creativity.

The PTA Cultural Arts Committee has sponsored and scheduled several programs for students. The Art of Black Dance Group, Judith Black: Story Teller, The Off The Wall Mime Group, and The Hampstead Players are some of these programs.

Graduation exercises were held on June 18, 1986. Fifty students received diplomas. The guest speaker was Mr. Steven Mirandi, former Auburn Village School Teacher. Honor speakers were Danielle Pelletier, David Mercier, and Brian Knox. Department Awards went to Danielle Pelletier, Social Studies; Brian Knox, Science; David Mercier, English; and Kathleen McGrath, Mathematics. The Honor Student Award was given to Danielle Pelletier. The PTA Award-Most Improved went to Eric Dolbec. The Millie Preston Service Award went to Heather Pinard. The School Board Citizenship Award went to Brenda Lawrence. Robert Lewis, Trustee of the Citizens Scholarship Fund of Auburn, made the presentation of the fifth annual Millie Preston Scholarship Awards to Kristin Marzlott and Jeanne Stritch.

I want to thank the faculty, staff, students, parents, School Board members, the Superintendent of Schools, S.A.U. #15 staff, and those other members of the community whose efforts have helped to improve the quality of education in Auburn.

Raymond Bourque
Principal

Report of the School Board

This year, the Auburn School District reached a major turning point for the future. The town's rapid growth over the past few years has filled our school to overflowing. That overflow has forced us to cut our library space in half to get more classroom space, and next year will see the use of temporary classrooms.

The school board anticipated this problem several years ago, and created a committee composed of citizens, teachers and board members to analyze our growth needs for both space and programs and recommend the best alternative available to meet those needs.

The committee's recommendations addressed both program and space needs for the future. Based on those recommendations it was decided to build an addition to our present school building. We anticipate that the addition will not only permit us to accomodate the growth of our student population for a number of years, but will also permit us to add to, or expand on, the programs we offer to our children. Both the space and program expansions will permit us to ensure that the education our children receive is the best that we can reasonably afford.

However, this construction project, while it is the last addition possible on the present site, is only the first step towards meeting the needs of the future.

Auburn's growth will not stop. If anything, it will continue at an increasing rate. And that can only mean that we will have to build again sometime in the not too distant future. It is for that reason that the committee which has worked so long and hard on this addition will continue in existence.

Once this project is well on its way, the committee will be asked to determine the most probable sequence of steps that will need to be taken over the next 20 or more years. The members will be asked to determine if Auburn should plan for a high school/junior high school as the next step, or whether it would be wiser to prepare for a middle or elementary school. They will be asked to anticipate the needed programs, costs, timing, size and location of those new facilities.

We hope that our efforts now will ensure that we will not have to face the same type of hurried decisionmaking in the future that many of our neighboring communities have faced and are facing.

But whatever the future may bring, I feel certain that we can rest assured that the present expanded facility will be a pivotal point for the Auburn School District for many years to come.

The Town of Auburn has lost a devoted citizen with the death of Francis J. Dollard. Only those who were associated with him realize his devotion and dedication to his work in the Auburn Village Cemetery. His hard work and saving disposition has saved the town money. In that respect he can never be replaced.

The Trustees of the Village Cemetery say thank you for a job well done.

Report of the Southern New Hampshire Planning Commission

The Southern New Hampshire Planning Commission offers a wide variety of service, resources and technical assistance to all towns that are dues-paying members of the Commission. A professional planning staff, assisted by consultants in certain specialized fields for which the Commission is unable to employ a full-time staff, work under the direction of your representatives to the Commission in developing and carrying out planning programs that require regional perspective as well as which pertain to your community.

Local planning assistance requests are normally made by the Planning Board and/or the Board of Selectmen of your town based on your local priorities. However, certain general studies, notifications or acquisition of resources that are deemed essential for all member municipalities of the Commission are also conducted with the concurrence of the Commission.

Services that were performed for the Town of Auburn during the past year are as follows:

1. Updated the town base map in the scale of 1" = 1000';
2. Provided the Planning Board with a suggested schedule for public notices and hearings pertaining to zoning and building code amendments;
3. Provided testimonies to the House and Senate committees of the 1986 session of the General Court on the HB 363, 349, 215, 174, 94 and 48; and SB 109, 117, 119, 215 and 110FN. These bills pertain to planning and zoning issues;
4. Prepared a report on school children multipliers for the region, including an analysis of findings for the Town of Auburn;
5. Co-sponsored the Municipal Law Lecture Series, to which Auburn officials were invited;
6. Conducted a workshop on how to prepare a capital improvement program for any town. This was attended by officials of the Auburn Planning Board;
7. At the request of the Board of Selectmen, updated the town's zoning map. This necessitated the drafting of new roads and zoning district boundaries since the last update and preparing the artwork for printing; and
8. Prepared mylar copies of maps drawn in the scale of 1" = 1000' containing the information on topography, soils, roads and wetland areas.

Police Commission Report

To the Citizens of Auburn:

Our equipment in the past several years has been upgraded and standardized. In addition, the number of patrol hours has increased to sixteen hours per day, providing better response to emergency calls.

Continual emphasis has been made on the training of our part-time officers. Six have attended 78 hours of required instruction and have been State Certified as part-time officers. Two are nearing completion and one has recently started in training to be State Certified. Lt. Edward Picard attended the State of N.H. Standard and Training course entitled Intoximeter 3000 School and has been State Certified in the use of the Intoximeter 3000.

Currently, there are openings for part-time officers. Any Auburn resident interested in becoming a part-time officer should contact Chief Lloyd P. Wood for further information.

During 1987, the Auburn Police Department will relocate to the Auburn Fire Department building on Raymond Road. In addition, we are seeking Town approval for the hiring of two full-time officers with expanded patrol coverage on a 24 hour basis. This should result in improved service to the Auburn community.

As we attempt to be responsive to the needs of the community it is increasingly difficult to sort the wants versus the needs, with consideration of budget constraints.

We solicit any suggestions you may have that would improve the effectiveness of the Police Department.

We appreciate the cooperation received by the Board of Selectmen, Auburn Volunteer Fire Department, N.H. State Police, Rockingham County Sheriff's Department, and other law enforcement agencies who have assisted us in times of need.

Respectfully Submitted,

Albert J. Samson, Chairman
Philip Hujar, Clerk

AUBURN RECREATION COMMISSION REPORT

The Auburn Recreation Commission has sponsored many programs in 1986 providing recreation to all age groups. Activities ranged from a winter carnival, two family concerts, a summer program, a swim program, the quarterly newsletter, and 2 senior citizen trips.

The winter carnival was held in February. Snow sculptures, figure skating, sleigh rides, cross country skiing and ice hockey were enjoyed by those who ventured outside.

Two concerts were sponsored by the Auburn Recreation Commission and partially funded by N.E. Foundation For The Arts program. Rosenshontz performed in March and Dan Butterworth & The Marionettes presented a Halloween performance.

The summer program, directed by Cindy Cavanaugh and Jackie Wood was offered for the children in grades 1 through 4 during July. Older children participated as volunteers counselor-in-training. Attendance was as high as 45 participants. The children enjoyed a wide range of arts & crafts and athletic activities. In addition an organized swim program was conducted at Calef Lake one morning a week during July and August. This would not have been possible without the generosity of Bill Cooper, the owner of the Calef Lake Campground. Also the children went on several field trips; Squam Lake Science Center, Shaker Village and Odiorne State Park.

Kathy Canedy continued as editor of the Auburn Newsletter. The Newsletter is a great forum for all committees and organizations in the town as it has an average mailing to over 1,300 homes.

The senior citizens enjoyed two trips thanks to the coordination of Eileen McDonald. The first trip was a luncheon cruise on the Mt. Washington boat. Over a hundred seniors participated. A second trip was sponsored to the Annual Octoberfest at Mt. Sunapee State Park.

The Sandy Acres Recreation Area has made some progress in 1986. The initial site work is completed for the final spreading of gravel and loam. Estimates and a final layout has been determined for the first phase of construction. Ball fields, soccer fields and playgrounds should be visible by mid-1987.

The Recreation Commission would like to thank all those who participated in any of our many activities. If you have any questions about any of our specific programs, please call the Selectmen's office at 483-5052.

Respectfully Submitted,

Amy Sullivan
Chairman

To: The Voters of Auburn

From: The Fiscal Study Committee

Last year at the Town Meeting a Study Committee was authorized to look at the budget year of the Town and the feasibility of changing the date of the Town Meeting. This committee has been at work and now submits a report with proposals for action at the Town Meeting this year.

First, we studied, and now recommend, the changing of the budget year from January 1 through December 31 to July 1 through June 30. The advantages we see are as follows:

(1) The Town would be spending money only after it has been authorized by vote of the Town Meeting. Presently we spend money before it has been authorized by Town vote which we feel is somewhat irresponsible.

(2) We would ease tremendously the burden upon those persons of the Town who are responsible for budget preparation by moving the working time away from the major holiday season of Thanksgiving and Christmas.

(3) We would then have the same budget time as the School District which could simplify the arranging of Town expense payments.

Second, we studied the feasibility of holding the Town Meeting in May rather than in March, and recommend this change to you. The advantages we see are as follows:

(1) The weather would be much more accommodating for persons attending the meeting, and hopefully the attendance of voters would be larger.

(2) The Town Report would be printed at a time when printers are not as busy with Town Reports, hopefully avoiding some of the possible mistakes and rushing.

(3) Again, report preparation, like budget preparation, would be removed from the major holiday season, making it much easier to get reports in.

On the basis of our studies, discussions and deliberations, we recommend to you the two Articles submitted in the Warrant. We will do our best to answer questions from the floor at the meeting.

114 Total Medical Calls

In 1986, the number of fire calls decreased while the number of medical emergencies increased. There was a notable drop in the number of chimney and brush fires in 1986.

During 1986, the fire department sponsored the annual green burn/ open house, two dances, Fire Prevention Weeks, CPR classes, Advanced first aid classes and participated in Olde Home Days.

Several major training drills were conducted by the department. The smoke trailer returned to Auburn and was used for specialized training. The fire personnel continue to attend fire school and medical related courses. The Auburn Fire Department is proud that many on the volunteer staff are certified fire-fighters and emergency medical technicians with advanced technique certifications.

Construction of the new firehouse on Wilson's Crossing and Pingree Hill Roads began in the fall. Completion is expected in the Spring of 1987. When completed, equipment will be relocated to the new station. The old fire station will remain equipped with fire and rescue apparatus. The old station is being renovated to accommodate the police as well as the fire department.

New equipment to the fire department include survivals, masks, chimney cleaning brushes, portable radios, and a new stretcher for the rescue vehicle.

Literature regarding safe wood stove operation and hot finder stickers are available at the firehouse.

The fire men and women are dedicated people who donate their time and skills to the town of Auburn. They endeavor to provide the best fire and medical protection possible. Remember, when reporting an emergency, stay calm, speak clearly and remain on the telephone until the dispatcher has all the necessary information.

Yours in Fire Safety,
Martin Sullivan
Chief, AVFD

Auburn Volunteer Fire Dept.

The Auburn Volunteer Fire Department was established in 1935 to protect the lives and property of the residents of Auburn and continues to function toward this goal. The needs of the town continue to grow and the fire department with it. A second station is being constructed on Wilson's Crossing and Pingree Hill Roads.

The fire department performs service calls for the public. It conducts classes, clinics and inspections, dances in May and New Years' and other activities available to the public.

Applications for membership are available at the firehouse and are accepted Sunday mornings and meeting nights. The station is open to the public on Sunday mornings.

Regular Fire Meetings: first Monday of each month at 8:00 pm at the firehouse

Rescue Squad Meetings: first Wednesday after the Fire meeting at 7:00 pm at the firehouse

Report of The Town Forest Fire Warden

Between July, 1985 and June, 1986, the state experienced fewer fires than normal. However, the two leading causes of forest fires remain children playing with matches and fires kindled without the written permission of a Forest Fire Warden. Both causes are preventable, but only with the help of the public.

Please help forest fire officials with fire prevention. Enforcement of the state timber harvest regulations is also responsibility of forestry officials. Timber tax forms are available from the Board of Selectmen for all forest land-owners in Auburn.

Members of the Board of Selectmen
Town of Auburn
Auburn, New Hampshire

Dear Members of the Board:

We have examined the financial statements of the Town of Auburn for the fiscal year ended December 31, 1986 and have issued our report thereon dated February 23, 1987. In connection with our examination, we reviewed and tested the Town's systems of internal accounting control and operating procedures to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards. The purpose of our review of these systems was not to express an opinion on internal accounting control and it would not necessarily disclose all weaknesses in the system.

We are pleased to report that significant improvements have been made in the financial records of the Town since our previous audit examination for the fiscal year ended December 31, 1984. Mostly, deficiencies noted during our audit were considered to be procedural in nature. In those cases, we reviewed proper accounting techniques with personnel who maintain the records. Other concerns relate to areas of operational efficiency and control where opportunities for improvement exist.

In the following paragraphs, we present our comments and recommendations for improving specific aspects of the Town's systems and procedures. We also refer you to the appendix of this letter which explains the purpose of our review, its limitations, and the professional standards involved.

Formal Accounting Policies and Procedures

Like many other communities in New Hampshire, the Town of Auburn does not have a formal record of its accounting policies and related administrative procedures. As commented on in our 1984 report, we again recommend that consideration be given to the development of a handbook for accounting and administrative procedures. Recognizing that the Town experienced many changes in accounting personnel during the year, we felt that the training of new personnel and the efficiency of the system would have been aided by this documentation. In addition to providing a source of information for new personnel and an effective tool for communicating management's intentions, a procedural handbook also provides a measure of control in the event of an unexpected absence of a key individual.

Bookkeeping System

The financial records maintained by the Town consist basically of single entry cash disbursement journals. Classified records of cash receipts are maintained

by the Town's Treasurer. For the most part, the system is designed for recording cash transactions only. Interim and year-end financial reports, required to be prepared in accordance with generally accepted accounting principles and state requirements, are very difficult to prepare from this system.

We are pleased that Town Management is considering the automation of its accounting and reporting functions. Available technology could significantly and cost-effectively support the Town's requirements by providing for more flexibility than the present system. Also, efficiencies would be created by providing for the simultaneous recording of check, journal and ledger in one operation. Because the number of manual operations is reduced, greater internal control over the accuracy of the accounting records is achieved.

We would be glad to offer our technical assistance to help the Town achieve these goals.

Annual Audits

While the Town of Auburn is fortunate to have a number of dedicated individuals who work very hard in managing the Town's affairs, they are not professional accountants and managers. For this reason, financial records and procedures tend to mirror the past, instead of addressing the present and future needs of the Town. We feel that an annual audit is one way for Town management to monitor its accounting and financial reporting needs and to determine what may be cost-effective measures for satisfying them. In addition to affording assurances to Town management, the public, or grantor agencies, as to the fairness of financial information, we see the annual audit as a critical element in the system of internal accounting control, an annual monitoring of financial records and procedures, and perhaps most important an ongoing opportunity to have a professional accountant at the Town's disposal for consultation during the year.

For the above reason, we recommend that the Town consider a policy of providing for an annual professional audit of its records.

In closing, we would like to thank the administration and staff for their courtesy and assistance extended to us during the course of our examination. If, after you have had an opportunity to review our comments and recommendations, you have any questions or need assistance in modifying or implementing any procedures, we would be happy to meet with you at your convenience to discuss them.

Very truly yours,
